This St Tropez VillaHotel is set in mature gardens with expansive lawns sweeping around the pool and villa. Here is a garden designed for every possibility: a stone, circular, dining terrace; shady, sunken, lawn; an inviting, infinity pool and neo classical pool house with a covered terrace; immaculately maintained grass, sunbathing areas with panoramic views over the Mediterranean. At night, each of these areas can be individually or collectively floodlit, transforming them into the most perfect place for two or two hundred. The five bedroom villa, set on two floors, is a highly stylized paragon of Mediterranean architecture. Vast floor-to-ceiling windows provide spectacular views from bedrooms, lounges and dining rooms. The light pours in, accentuating the vast ceiling height. Wit and originality are everywhere. The main lounge even has a full size tree sculpture, set into the wall with an open fireplace at the base of its trunk. La Forge is a VillaHotel with immense style. Every aspect from the architecture to the views has been planned to make the very most of the location.
